

Ecosystem

Professor Arthur Roy Clapham *editor*
with Tutin and Warburg of
Flora of the British Isles
Cambridge University Press 1952

encouraged by Sir Arthur Tansley
1932 coined the word Ecosystem
He was Professor of Botany
at Sheffield 1944 to 1969

No 35 Sheffield by Gordon Home. *The British Isles in Pictures* by Clive Barnard M.A. A & C Black 1915

The composition and richness of vascular plant floras were measured in a stratified sample of 61 urban, domestic gardens in Sheffield, UK, based on complete garden inventories. The entire garden flora contained 1166 species, of which 30% were native and 70% alien.
